

Asiavisory Sdn Bhd. has created a concept and made it available under the name The Gateway (Malaysian Dutch Business Gateway). The Gateway, a company established in the centre of Kuala Lumpur and provides information and support services in the fields of financial services, trade, education, and technology transfer in agriculture, waste management, water-management, recycling and other areas. With knowledge transfer at heart Malaysian Dutch Business Gateway has the primary objective to strengthen the link between the European and South East Asian Gateway; The Netherlands and Malaysia. The opportunities arising from the industries, education, healthcare and environment complimented with the cooperation and support of as many organizations as possible such as the Royal Dutch Embassy, the MDBC, Malaysian Dutch Business Gateway concept will achieve a Dutch 2 x 2=5 model.

Ideally located in the heart of Kuala Lumpur, Malaysian Dutch Business Gateway offers a solid foundation for entrepreneurs to start an exploration of the existing opportunities in Malaysia and the rest of the Asian region. At the same time the low initial costs will make it more interesting to start a business in Kuala Lumpur. Malaysian Dutch Business Gateway provides a professional, spacious and modern working environment complimented by all of its required facilities

In operations, Malaysian Dutch Business Gateway provides A to Z solutions for various businesses regardless of region or continents. Malaysian Dutch Business Gateway has been launched many projects successfully in Malaysia. Malaysian Dutch Business Gateway is pioneer company introducing Dutch Technology for Electric Scooter and Bike in Malaysia. MDBG contribution for Green Energy is also unique as compares to other companies those brought up many Green Energy Concept. *RentAlite*, *Roofclix*, *Electric Bikes & Scooters*, *GEO Soil Stabilization*, *Solar House* etc. are all projects that are contribution to Green Environment. In Real Estate and *Land Reclamation* projects are also developed in Melaka and other parts of Malaysia
